Emily is a 15-year-old high school student who is keen on painting. She loves using 1._____ to show her emotions and ideas. Most weekends, she works on creating new paintings, and she even takes part in local 2._____. Emily thinks that trying out new techniques and seeing how they change the final result is 3._____.

Transkrypt:

Interviewer: Hi there! Thanks for joining us today. Could you start by telling us your name and a little about yourself?

Emily: Absolutely! My name is Emily. I'm currently 15 years old, and I'm a high school student. One thing I'm really passionate about is painting. I've been painting for the last three years, and I just love how I can express my thoughts and emotions through colours and shapes. I often spend my weekends working on new pieces, and sometimes I even participate in local art competitions. It's something that allows me to relax and really focus on what I enjoy. Besides painting, I also like reading fantasy novels, but painting is definitely my favourite hobby.

Interviewer: That sounds fantastic! What kind of painting do you usually do?

Emily: I mostly do acrylic painting, but I'm starting to experiment with watercolours as well. It's really exciting to try out new techniques and see how they change the final result.

Two friends are talking about how much Sarah has changed. She is now
1. _____ than most people in her group.
Her hair is now 2. _____ and blonde,
and it suits her very well. She uses subtle makeup which makes her look elegant
and more grown up. All the changes in her appearance happened within
3. _____.

Transkrypt:

Friend 1: Have you noticed how much Sarah has changed? It's like she's grown up overnight.

Friend 2: I know, right? She's now about 170 cm tall, which is quite tall for her age. I remember when she was one of the shortest in our group, but now she towers over most of us. And her hair, it's just beautiful. She used to have it cut short, but now she's let it grow long, and it's this lovely blonde colour. It suits her so well.

Friend 1: And have you seen her eyes? They're the most striking green. It's like they change colour depending on the light, sometimes they even look a little hazel.

Friend 2: Yes, her eyes really catch your attention, especially with the way she does her makeup. It's simple but makes her look great. I think her height, her hair, and her eyes together make her look very elegant and grown-up. It's surprising how much someone can change in just a year.

When John is alone, he feels 1. _____
and thinks too much. He also gets stressed, especially during
2. _____, because he finds it hard to
stay calm and find the right answers in his head. But when he is with his friends, he
feels much better because they help him forget about his worries. Being with
people who 3. _____ makes him feel
better and less stressed.

Transkrypt:

Therapist: John, I was wondering—how do you feel when you're alone?

John: To be honest, when I'm alone, I feel a bit nervous. I start thinking too much about things. Sometimes I worry about things that probably won't happen, but I can't stop the feeling. For example, during exams, I get very stressed. My mind feels empty, and I start doubting all my answers. I've tried to stay calm by breathing deeply, but it's still really hard for me.

Therapist: I understand that. And how do you feel when you're with your friends?

John: Oh, it's very different! When I'm with my friends, I feel happy and relaxed. They help me forget my worries. We joke, tell stories, and have a good time. It's like all the stress goes away. I think being with people who care about you makes you feel better. It's nice to know you have people who support you.
